Objective

Aspiring software developer with strong foundations in Java and full-stack development, seeking to build secure, scalable applications while continuously enhancing technical expertise and contributing to impactful solutions.

Education

Noida Institute of Engineering and Technology, Greater Noida	2023 – Present
Bachelor of Technology in Information Technology	CGPA: 8.8
Sarang Convent School, Seohara	2022 – 2023
Intermediate (Class XII)	Percentage: 76.5%
Sarang Convent School, Seohara	2020 – 2021
Matriculation (Class X)	Percentage: 92%

Projects

MentorBridge	(04/2026 – Present)
- Engineered a scalable cross-college mentorship platform connecting students with alumni and seniors for structured placement guidance. - Designed a query-response system with intelligent mentor selection and reputation-based ranking to improve response quality. - Implemented secure authentication and user management using JWT-based security and role-based access control. - Integrated features including resume review, notifications, and networking to enhance user engagement and career support. Tech Stack: React, Spring Boot, MongoDB, Spring Security, JWT Authentication	
Online Voting System	(03/2026 – 04/2026)
- Developed a scalable voting platform with role-based access (Admin, Citizen, Election Manager) for secure and transparent elections. - Built MongoDB-based architecture with CSV-driven onboarding, OTP-based authentication, and JWT security. - Designed election workflows with eligibility constraints, one-vote-per-user enforcement, and real-time results aggregation. Tech Stack: React, Spring Boot, MongoDB, Spring Security, JWT Authentication	
Secure File Sharing Platform	(08/2025 – 10/2025)
- Developed a secure file-sharing system with encrypted storage and controlled access. - Implemented AES-256 encryption and CSRF protection to enhance data security. Tech Stack: JavaScript, PHP, Bootstrap	

Certifications

- Object Oriented Programming Using Python — 09/2024
- Data Structures and Algorithms Using Python — 10/2024
- Network Fundamentals — 05/2026
- Java Programming Fundamentals — 03/2025

Skills

Languages: C, Java, JavaScript, Python (Basics)
Core Concepts: Data Structures & Algorithms, OOPs, Computer Networks, DBMS
Frameworks & Tools: React.js, Node.js, Express.js, Spring Boot, Bootstrap, Git, GitHub, Postman
Databases: MySQL, MongoDB
